

Brushing Your Teeth

Sequential Flow Chart
by Ashley Kodya
Web Programming Fundamentals Section 01

Obtain a toothbrush and a tube of toothpaste and go to your bathroom sink with these items.

Turn on facet and rinse the bristle end of the toothbrush.

Apply a liberal amount of toothpaste from the toothpaste tube on the bristle end of the toothbrush.

Put bristle end of toothbrush into your mouth and begin massaging teeth starting with front of teeth, then moving to top of teeth then to back of teeth.

Rinse off toothbrush using faucet at the sink then repeat the massaging of the teeth from the previous step.

Finish the teeth cleaning process by flossing your teeth with dental floss and/or gargling with mouthwash.
